DAVE CROOKS FOR CONGRESS

HE'S ON OUR SIDE

"Congress isn't getting the job done. They are playing politics. I'll fight for Hoosier families and make jobs and the economy my top priority."

– Dave Crooks

Creating Good Jobs

Hoosier families have been hit hard with job losses, and Congress isn't doing anything about it. Dave Crooks is a small business owner and understands what it takes to create jobs. As our Congressman, Dave will cut red tape to help small businesses grow, eliminate tax breaks for companies that outsource jobs, and work to bring the new jobs we need to keep our young people here in Southern and Western Indiana.

Fighting Rising Costs, Helping Hoosier Families

Hoosier families are getting hurt by rising costs, especially gasoline. Dave Crooks will find common sense solutions that would make us less dependent on foreign oil, support domestic exploration for responsible companies to lower prices, and ensure oil companies making record profits pay their fair share of taxes. Dave will also cut taxes for hard-working middle-class families and work to make college more affordable.

Cutting Government Spending

Government spending is out of control. Dave Crooks will work to cut government spending in a balanced way. That means cutting wasteful spending in all areas of our federal government, while keeping investments in education and our economy that will pay dividends to Indiana. Dave Crooks will stand up to those who would eliminate Medicare and Social Security that protect our senior citizens.
